Carl R. Nassar received his B.Eng, M.Eng. and Ph.D. degrees from McGill University in 1989, 1990 and 1997 respectively. Upon receiving his final degree, Dr. Nassar was immediately promoted from Faculty Lecturer to Assistant Professor while at McGill. In the Fall of that same year, Dr. Nassar joined the faculty of Electrical and Computer Engineering at Colorado State University, where he is currently an Assistant Professor.

Dr. Nassar has worked extensively on receiver structures capable dealing with the presence of rapidly changing channel effects, such as rapidly changing phase offsets. More recently, Dr. Nassar’s focus is on issues of wireless multiple access technology. Dr. Nassar founded and currently directs the RAWCom (Research in Advanced Wireless Communications) Laboratory at CSU, and has authored a textbook in telecommunication, Telecommunications Demystified.

Zhiqiang Wu received his B.Eng. degree in 1993 from Beijing University of Posts and Telecommunications and his M.S. degree in 1996 from Peking University. After graduation, Mr. Wu worked as a research engineer at the China Academy of Telecommunication Technology. In 1998, Mr. Wu left to pursue his Ph.D. at Colorado State University.

Mr. Wu’s research interests are in the area of broadband wireless CDMA. Mr. Wu is the first author of the Chinese national standard: Network Management Standards for CDMA.
