

Michael G. Cotton was born in Augusta, Maine on December 30, 1966. He received a B.S. degree in Aerospace Engineering and a M.S. degree in Electrical Engineering (with an emphasis on electromagnetics) from the University of Colorado at Boulder in 1992 and 1999, respectively. Since 1992, he has been with the Institute for Telecommunication Sciences (ITS) at the U.S. Department of Commerce Laboratories in Boulder. As a member of the Telecommunications Theory Group at ITS, Mr. Cotton conducts propagation and channel characterization studies through measurement and modeling. His research interests include the indoor radio channel, digital signal processing, quantum and classical electromagnetic field theory, spectroscopy, and atmospheric wave propagation.
