R. Lynn Kirlin received his BSEE and MSEE from U. Wyoming in 1962 and 1963 and his PhD/EE from Utah State in 1968. His industrial experience includes communications systems at Martin-Marietta and Boeing 1963-66, computer peripherals at Datel (Wyoming) 1969, and applications software at Floating Point Systems, (Oregon) 1979. He was with the EE Dept. at U. Wyoming from 1969-1986 and has been with the ECE Department at the University of Victoria since 1987. His major research and consulting associations have included US and Canadian Naval organizations and oil industries in the areas of statistical seismic and sonar array signal processing. He was an associate editor for the IEEE Transactions on Signal Processing in 1989-91. He is a co-author of the 1998 Best Paper in Geophysics and co-editor and major author of Covariance Matrix Analysis for Seismic Signal Processing.
