

**Theodore S. Rappaport** received BSEE, MSEE, and Ph.D. degrees from Purdue University in 1982, 1984, and 1987, respectively. Since 1988, he has been on the Virginia Tech electrical and computer engineering faculty, where he is the James S. Tucker Professor and founding director of the Mobile & Portable Radio Research Group (MPRG), a university research and teaching center dedicated to the wireless communications field. He received the Marconi Young Scientist Award in 1990, an NSF Presidential Faculty Fellowship in 1992, and the Sarnoff Citation from the Radio Club of America in 2000.

Dr. Rappaport has 25 patents issued or pending and has authored, co-authored and co-edited 17 books in the wireless field, including the popular text *Wireless Communications: Principles & Practice* (Prentice-Hall, 1996, 2002), and *Smart Antennas for Wireless Communications: IS-95 and Third Generation CDMA Applications* (Prentice Hall, 1999). He has co-authored more than 150 technical journal and conference papers and was recipient of the 1999 IEEE Communications Society Stephen O. Rice Prize Paper Award. Since 1998, he has been series editor for the Prentice Hall Communications Engineering and Emerging Technologies book series. He serves on the editorial board of *International Journal of Wireless Information Networks* (Plenum Press, NY) and the advisory board of *Wireless Communications and Mobile Computing* for Wiley InterScience, is a Fellow of the IEEE, and is active in the IEEE Communications and Vehicular Technology societies. Dr. Rappaport is also chairman of Wireless Valley Communications, Inc., a microcell and in-building design and management product company. He is a registered professional engineer in the state of Virginia and is a Fellow and past member of the board of directors of the Radio Club of America
